REGULAR REPORT OF PROCEEDINGS. TARIFF PETITIONS IN THE SENATE-THE NATIONAL SURVEYS-THE KELLOGO CASE-NEW BILLS IN

THE HOUSE-CUBTIN-YOCUM CASE. SENATE WASHINGTON, May 10, 1880. In the Senate, to-day, a communication was received from the Secretary of the Interior, stating that his estimates of March 5, 1880, for deficie cies for arrears and for Army and Navy pensions have been found insufficient, and transmitting un increased estimate of the same.

Several petitions in favor of the Eaton Taroff Cotomis sion bill were presented-among them, one very numerously signed by New-England manufacturors.

ously signed by New-Engined manufacturers.

Mr. DAWES (Rep., Mass.) catted attention to the very large number of such potitions presented. He hoped the chairman of that committee would seek to call up the bill out of its regular order.

Mr. BAYAKD (Dent., Del.), chairman of the France Committee, said the last bill on the calendar was 304. The Tarriff bill was No. 510. It was well known how slowly business on the calendar was disposed of. He personally would use every effort to get the bill considered.

personally would use every enter to be seen that the sidered.

Mr. BECK (Dem., Ky.) wished it understood that the report of the committee was not mammens. He would oppose the bill, and advocate that of the Senator from Arkaness (Mr. Garland). He did not want Congress to put its business into she mads of outsiders, especially as it appeared in this case that the petitions for the bill were all on one side—" machine" petitions for the Mr. EATON (Dem., Conn.), denied that the petitions were "macoine" petitions, and said there was one especially representing \$200,000,000 of capital in collon manufacturing which represented every shade of optimion on the tariff.

perially representing which represented every shade of optiion on the tarif.

Mr. BURNSIDE (Rep., R. I.) moved to postpone the
calcuder and consider the House joint resolution relative to extending the National survey into the States.

The motion was agreed to—Yens, 24; nays, 26.

The joint resolution was therefore taken up. It provides that the National survey authorized by the Sundry Civil act of 1879 may be extended into the States.
The Senate Committee on Appropriations propose to
smend so as to provide that it may be extended into
the respective States "when requested by the authorities thereof."

After deliberation on the subject had proceeded some
time Mr. CONKLING (Rep., N. Y.) saked Mr. Enton, a
member of the Appropriations Committee, whether the
resolution, as it came from the House, was merely intended to allow a State line to be crossed to complete a
National survey.

Mr. EATON said it was not a shade with him, but a living reality. It is not one of the old things that Democracy thought and dreamed of fifty years age, but it is alive now, and we stand upon it even kets.

The morning hour at this moment expired, and debate was stonged.

The Schale resumed consideration of the resolutions declaring Mr. Spofford entitled to the soat now held by Mr. Kell gg.

Mr. HoAR (Rep., Mass.) spoke upon his proposed substitute, declaring the matters reported by the Committee on Privileges and Electrons not smiliterate to unsent Kellogg. The voice proposed to be stifled here was the last voice from the States lately in rebellion which represents their loyalty. It was the voice of one who had seen honorable military service in the cause of the Republic under a commission stened by Abraham Lincoln. As Governor of Louisiana he had found her credit weak, and left it strong. He found her boads ediling at 25 cents on the dollar, and left them at 75 cents. He found her treasury empty; he left in it a surplus. He found the State tax twenty-five and a half millions, and left it fourteen and a half millions, and left it at fourteen and a half millions. He did not add a dollar to her debt. His Democratic successors expended the surplus he left in the treasury to the credit of the interest much in the payment of one instalment of interest, and then repudiated the debt. Passing to the decision of the plea of ree adjudicata, Mr. Hoar said the logic of the Senator from Georgia (Mr. Hoar said the logic of the Senator from Georgia (Mr. Hoar said the logic of unseating the Senator from that State and undering the deliberate judgment of the Senate. Peeling and prejudice made it easy to think that wrong which indered party ends. The record shows that the whole matter was settled on its merits, after full consideration.

Mr. Hill (Dem., Ga.) interrupted to state that the

that the Stateliself had settled that controversy by deciding that the Packard Legislature never was a legal
Legislature.

Mr. HOAR—Exactly. One portion of the committee
said the Senate must determine which Legislature in
March had the rightful title, and proceeded to ou it. The
Senator from Georgia (Mr. Hill) said no, the State, by
its subsequent action placing the Nichols Legislature in
power, has settled that question, and the effect of that
subsequent action reacts for the government of the
Senator. There is no escape from the logic of that proponition, nor from its revolutionary consequences.
It was significant that the Senator from Onio (Mr.
Thorman) made a motion when the question first came
up to seat Mr. Spefford on the facts known, thus ignorling any exclusion of evidence. After a further analysis
of the proceedings in the case, Mr. Honr concluded by
saying that if it became necessary hereafter, the
challenge of the Senator from Louislana (Mr. Jonas) to
investigate the means by which he and certain of his
collectures obtained their sears might be accepted; and
if so, the country would hardly be much roused by their
charge that their opponents were flaunting the bloody
shirt, if it became apparent that the garment waved
by them was not only bloody but stolen.

Mr. HILL (Denn. Ga.) took the floor, but preferring
not to begin speaking at a late hour, yielded it to other
Senators until to-morrow.

The report of the Conference Committee on the Diplomatic and Consular Appropriation bill was adopted.

At 4:50 p. m. the Senate were reopened, adjourned mutil tomorrow.

The auniversary of the Alumni Association of the Seminary was held yesterday furenom. Papers were read by the Rev. Miathy Hill, D. D. and the Rev. Charles W. Baird, D. D., and reports were received from class secretaries. In the afternoon the Alumni dined with the Faculty and Directors.

THE WORK OF WOMEN MISSIONARIES. The nineteenth anniversary of the Woman's Union Missionary Society was celebrated in the Broad way Tabernacle yesterday afternoon. The Rev. Dr. J. Howard Smith, of Newark, presided. A statement of the work done during the last year was made by the Rev. R. C. Matlock, of Philadelphia, and addresses were delivered by the Rev. Albert B. Simpson, of this city, and the Rev. William Elliot Griffs, formerly pro-

fessor in the imperial University, at Tokio, Japan.

The principal fields of the society's work are Calcutta and Allahabad, in India, Peking, Yokahama, and at Larmaen, in Cyprus. Under the instruction of Miss Hook and her assistants in Calcutta and Rajpore there are 1.162 women and girls. Twelve schools have been established in Calcutta, containing 500 children, and in Rajpore thirteen schools have been started with an attendance of 400 pupils. Opposition to Christianity among the natives is rarely found and idol worship is becoming the natives is rarely found and idei worship is becoming more and nore a thing of the past. An orphanage has been established in Calcuta, where more than 100 children are cared for by Mrs. Page. At Allahabad 440 pupils are faught under Miss Lathorp, Miss Ward and others. From China the reports have never before been so encouraging. Chinese women have now their own prayer meetings; and they are opening village schools. Twenty-five partis are now boarding at the Mission in Peking, beside a large number of day pupils. In Japan there are now fifty churches and over 100 native preachers. At Hakone and at many other towns there has been shown a spirit of inquiry and interest that is encouraging. In Cyprus, Mrs. Fankart has opened a school for the training and conversion of Greek gir s. She has now sixty under her caarge. At Allahabad, the carnestness of the women missionaries was rewarded by a girt to them of \$1,000 from the Government. All this work during the year has been done at the expense of \$33,000.

A large audience, including many dergymen, attended the flity-second anniversary of the American Seamen's Friend Society in the Broadway Tabernacle Seamen's Friend Society in the Broadway Laborance last evening. The exercises were conducted by the president of the society, R. P. Buck. An abstract of the fifty-second annual report was read by the Rev. Dr. S. H. Hall, secretary. It stated that the society sent out hist year SS6 houries on vessels carrying 12.171 men, making a total of 6.799 libraries sent out in twenty-two years. Within the year the Sallors' Home in Cherry-st. has been refitted at a cost of \$38,552, and its now ready to accommonate over 200 scamen. The whole number received since it was established in 1842 is 96,590. During the hast year the receipts of the society were \$78.88742 and the expenditures \$50,982.18. The principal andress was made tures \$90,992 18. The principal address was made the Rev. Dr. Alexander McKenzie of Cambridge, ass.

TAXING THE ELEVATED ROADS.

A PROPOSED BILL TO TAKE FIVE PER CENT OF THE

Gross excepts in Lieu of Taxation.

The Sinking Fund Commissioners met yesterday to discuss a bill prepared by the Controller, which is to be presented to the Legislature to-day or to-

to discuss a bill prepared by the Controller, which is to be presented to the Legislature to-day or to-morrow. It provides that the New-York and Metropolitan Elevated Railway Companies, or the Manhattan Company as lesses, shall pay to the city for the use of the streets tive per cent of their gress receipts, in lieu of all taxes on their structures which have been or may be built within the city, and on the rolling stock and stocks, and bonds of these companies, except the taxes on real estate owned by them jointly or severally and not within or over the streets, avenues and public places of the city. The act also provides that within ten days after the passage of the act the companies shall adopt a resolution complying with its provisions and life it with the Controller.

Accompanying the bill was a statement by the Controller. It sets forth that under the present law the companies pay to the city 5 per cent of their net receipts. In 1879 the New-York Elevated Railroad paid to the city \$29,8684, and in the ten years and three months ending April 1, 1880, there has been paid a total of \$15,938 99. The Supreme Court decision declares that the structure and tracks are real estate, and in accordance with this the Tax Commissioners have placed the following valuation on the property of the companies: New-York Elevated, real estate, \$6,768,400; Metropolitan Elevated, real estate, \$3,821,600; total, \$10,649,860. Other real estate—New-York Elevated, \$140,000; Metropolitan, \$3,225,000; grand total, \$14,000; Metropolitan system to accept the provisions of the bill. I have been informed that the gross receipts of the roads amounted last year to about \$5,000,000,and this will be exceeded in 1881. The present law allows 5 per cent on the net receipts. The difficulty of getting at the amount of the net receipts is so great that we cannot tell to what the city is entitled. This bill would enableque to tell exactly what the citys of the Legislature to allowing the Legislature to should be unwise, because then they could got t

ciple of legislation to make a contract in lieulof tasation.

The discussion continued at considerable length.
The Mayor said that the city should get more than
5 per cent of the gross receipts. He moved that a
section be added to the bill that the right to repeal
or amend the act be reserved to the Legislature.
Th's was lost by a vote of 3 to 1. The Mayor then
moved that the matter lie over for one day, in order
that he might ascertain the basis of the valuation
made by the Tax Commissioners. This was voted
down, as were successive motions made by the Mayor
that the rate of taxation be fixed at 10, 7½, and 6
per cent, and that the amount returned by the companies be not less than the companies pay under the
present valuation. present valuation.

The resolution in favor of the bill was then adopted.
